Eric Wing	Kimberly Pettit
Dan Narsavage	Chuck Spencer
Stacey Schaeffer	Lori Graves
Ryan Cosby	Ken Pidjeon
Eric Adolfson	Ian Shives
Bill Masters	Robin Jack
Mike Tanner	Matt Tenold
Michael Comeskey	

2012 Meeting Schedule and Venue

- Changed meetings from monthly to every other month.
 - February will be a joint SIG/SDC meeting during SWIG
 - Regular meetings fall on the 2nd Thursday of the months of March, May, July, September, November, & December. If conflicts occur with other (large) meetings, we can cancel this one but please put them on your calendar.
- There was discussion of changing the venue to a coffee shop as was done in days past. Decision was to keep it as it currently is and float around to conference rooms. ;-) Dan Narsavage will provide donuts for all SIG meetings. ;-)

2012 SIG Goals

- Update the SIG web site – The current one hosted by ACHD is on life support. New site is close but we could use some volunteers with web site experience to keep it current.
- Yearly update of the SIG Data List – Currently on the old SIG website. Jimae offered to aggregate updates if others will send her their updates and post it back up. Metadata needs updated too, but decided to wait a couple months.
- Outreach – Invite State GIO Office staff. Mike Hickok will contact Paul Reyes
- Review bylaws and update if needed
- SIG Focus –
 - Ada County Data

- Software changes
- Things that affect all, or the majority of participants

Change Management

- Centerline data – Dan Narsavage reviewed coals and schema changes in depth with a PowerPoint.

Software Demo

- Community Maps – Sara Stolz Talked about the ESRI Community Maps and what is out there for Ada County. ESRI helped get it up and running but Ada County will maintain from here on. Updates are yearly for now. To check it out go to ArcGIS Online and search Boise.

Misc.

- Michael Comeskey was contacted by a private school wanting to integrate GIS into their curriculum.
- Jimae shared information about an RGAC request to add critical features to addresses.
- Kimberly Pettit shared that she is working on flood risks and getting new Lidar. Let her know if you need areas for risk assessment. Check out idaholidar.org
- HAZUS training in Boise on March 22-23. Contact Crash if you have a need.

Next regular Meeting: March 8th, 2012 Ada County Highway District Auditorium
Meeting adjourned at about 10:45a.m.

Minutes prepared by Jim Hetherington
